The **Infrastructure and Energy Capital** team invests Macquarie's balance sheet to provide flexible capital to our infrastructure and energy clients, management teams and projects. Having been at the forefront of infrastructure investment, advisory and development for over a decade, our strategy and is focused on identifying and executing complex investments across geographies in the digital, social and economic and energy transition infrastructure space.

What is it like to work with us?

You will analyse financial data (including building and running financial models), draft pitch presentations for clients, add value to live deals and actively track share price movements, whilst monitoring the media for industry news, trends and transaction updates. You will work in highly collaborative, market-leading teams centred on camaraderie and respect, contribute to projects which leave a lasting impact on our clients and communities, gain exposure to clients and senior business leaders and have an opportunity to pursue new and exciting pathways across geographies, sectors and teams.

What we offer

Our 10-week internship starts in June and provides:

- direct access to our senior leaders
- on-going performance development
- formal classroom learning paired with interactive and on-the-job real work experience
- opportunities to build your network through social events and community service projects
- a buddy to help you navigate the organization.

Interns are eligible to be fast-tracked to our full-time Graduate Program which provides even greater training and career development opportunities upon graduation.
