

Macquarie Asset Management is a global asset manager, integrated across public and private markets. Trusted by institutions, governments, foundations, and individuals to invest their assets globally, providing a diverse range of investment solutions including real assets, real estate, credit and equities, and multi-asset.

Our teams

Real Assets manages assets across our infrastructure, green investments and natural assets platforms. As a leading global infrastructure manager, our investments underpin economies, communities and households, and are relied on by hundreds of millions of people every day.

Real Estate is a global real estate manager and investor delivering tailored solutions for clients. The team provides access to opportunities across the real estate spectrum – from investing in and partnering with specialist operators to access attractive and scarce real estate, to the disciplined management of core/core+ real estate to deliver value for our clientr clients.

Credit is a global credit platform offering focused expertise and solutions across the liquidity, risk and return spectrums.

- Fixed Income provides solutions in traditional fixed income including US and Australian fixed income, investment grade credit and asset-backed securities, emerging markets debt and insurance.
- Leveraged Credit provides solutions in high yield, bank loans, CLO debt and multi-asset credit.
- **Private Credit** provides private credit and credit-like solutions across infrastructure, fund capital, real estate, private placements and asset finance.

Equities & Multi-Asset operates as independent investment boutiques that partner with institutional and individual clients and advisers to deliver specialist active investment capabilities across global equities and multi-asset solutions.

Client Solutions Group provides clients with a single point of contact across the breadth of our asset management platform including strategic partnerships, institutional and international wealth distribution, wealth product, marketing and communications.

Solutions provides clients with access to solutions and services to help meet their investment needs including investment solutions, wealth, social impact and insurance solutions.

Enterprise is responsible for investing and supporting MAM's data and technology capabilities and infrastructure.

MAM Central is responsible for establishing and executing MAM's strategy and leading inorganic opportunities such as strategic mergers and acquisitions, investments and partnership.

What is it like to work with us?

Depending on your team, you could be:

- valuing and running performance analysis of fund assets through financial modelling and scenario analysis
- assisting with the review and approval of asset acquisitions including financial analysis of the impact of acquisitions and appropriate funding strategy
- preparing marketing and investor relations materials for internal and external use
- completing financial and corporate analysis of new transactions including cash-flow modelling, asset valuations, and industry research
- managing existing products and developing new products, including modelling cash flows and working with the legal team in preparing and reviewing legal documentation
- reviewing asset pricing and assisting with trades with internal and external trading desks

What we offer

Direct access to our senior leaders

Ongoing performance development

Formal learning paired with interactive and on-the-job real work experience

Opportunities to build your network through events and community service projects

A buddy to help you navigate the firm

Salary range

Estimated salary amount is the equivalent of \$70,000 - \$110,000 annually, prorated for the length of time of the internship. Actual base salary may vary based upon, but not limited to, relevant experience, time in role, peer and market data, prior performance, business sector and geographic location.
